MSc in Risk Engineering in Finance and Insurance – Finance

12-month apprenticeship – starting September 2026

Term 1: 2 days/week in company • Term 2: 3 days/week • Term 3: 4.5 days/week • Term 4: full-time

Education

Université Paris 1 Panthéon-Sorbonne – MSc IRFA

Risk Engineering in Finance and Insurance

2026 – 2027

Relevant coursework: Financial Products and Introduction to Pricing, Decision under Uncertainty and Portfolio Management, Applied Derivative Pricing, Yield Curve Models, Financial Modeling, Machine Learning, Python for Optimization and Finance, Market Risk Measures, Stochastic Calculus

Université Paris 1 Panthéon-Sorbonne – MSc MAEF – *Graduated with Honors*

Applied Mathematics in Economics and Finance

2025 – 2026

Relevant coursework: Probability, Statistics, Probabilistic Methods in Finance, Econometrics, Portfolio Choice and Asset Pricing

Université Paris 1 Panthéon-Sorbonne – BSc MIASHS – *Graduated with Honors*

Mathematics and Computer Science

2022 – 2025

Projects

Research Project (M1)

2025 – 2026

Construction of Piecewise Deterministic Markov Processes and Application to the Cramér-Lundberg Ruin Model

- Financial modeling: Geometric Brownian Motion, two-regime model (HMM), and Value-at-Risk (VaR)
- Monte Carlo simulations (R): numerical validation and sensitivity analysis
- Stochastic risk modeling: piecewise deterministic processes, Markov jump processes, infinitesimal generator
- Cramér-Lundberg model: ruin probability and Lundberg inequality

Professional Experience

Private Mathematics Tutor – *Self-employed*

2024 – Present

- Tutoring students from middle school to undergraduate level in mathematics and Python
- 900+ hours of teaching since December 2024
- Average improvement of +3.4 points, 100% exam pass rate, 89% with honors

Business Management Intern – *Écurie Julien Raffestin*

2022 – 1 month

- Supported day-to-day operations
- Managed supplier and service-provider relationships and coordinated events: races, competitions, and off-site training
- Maintained regular communication with horse owners

Skills

Quantitative Finance: Pricing and valuation, derivatives, market risk, stochastic methods, Monte Carlo simulation, VaR and Expected Shortfall, time-series analysis

Programming & Data: Python (NumPy, Pandas), R, SQL, SAS (IML)

Tools: Excel, Microsoft 365, LaTeX

Languages: French (native), English (C1)

Certifications

Bloomberg Market Concepts (2024) – TOEIC 880/990 (2025)

Leadership & Community Engagement

Scouting (FSE): Co-organized activities and a summer camp in Scotland for 60 scouts (aged 12–17): budget, logistics, equipment, and scheduling

University Ambassador: Represented the MIASHS Bachelor's program at career fairs, open days, and information events

Volunteering: La Chorba, French Red Cross – outreach and meal distribution

Sports: Competitive Judo, Tennis
